CASSANDRA VUN'S STORY

UC DOUBLE DEGREE GRADUATE 2023

Bachelor of Communication Arts (Advertising)

Bachelor of Communication and Media (Marketing Communication)

My choice to study at UC has been life changing. The opportunity to study abroad at UC not only significantly contributes to my future career but has also nurtured personal growth. UC provided hands-on experiences directly related to my degree, unveiling undiscovered aspects of my potential. Despite the cultural shift in moving to Australia, the exposure has broadened my perspective immensely. The people at UC – friends and professors – played a crucial role, making the challenging journey worthwhile. Looking back, I can say that my time at UC was a turning point in my life, shaping my goals and character.

In my final semester, I took part in the The International Advertising Association (IAA Australia) Big Idea competition in Sydney against 7 other Australian University teams, and the girls in my group we became good friends. The IAA Competition is a challenge involving the creation of a marketing campaign for a real client in a real-world scenario. Our client for 2023 was Youi Insurance... Over the intense four weeks, my team and I conducted research, surveys, and developed our big idea. Despite the challenges, especially for someone unfamiliar with the Australian insurance market like me, we triumphed, winning the competition. It was the best way to conclude my last semester and before leaving Australia. This experience not only provided hands-on career experience for me and my friends but also led to valuable friendships and connections in the marketing industry.

I am very appreciative of UC for the experiences, connections, and teachings that have shaped me into a confident, well-rounded person who is prepared to pursue her future goals. “
